

SECTION 8 SIGNS

Subdivision 1: FINDINGS.

1. Exterior signs have a substantial impact on the character and quality of the environment.
2. Signs provide an important medium through which individuals may convey a variety of messages.
3. Signs can create traffic hazards, aesthetic concerns and detriments to property values, thereby threatening the public health, safety and welfare.
4. The city's zoning regulations have historically included the regulation of signs in an effort to provide adequate means of expression and to promote the economic viability of the business community, while protecting the City and its citizens from a proliferation of signs of a type, size, location and character that would adversely impact upon the aesthetics of the community and threaten the health, safety and welfare of the community. The regulation of the physical characteristics of signs within the City has had a positive impact on traffic safety and the appearance of the community.

Subdivision 2: PURPOSE AND INTENT.

It is not the purpose or intent of this sign ordinance to regulate the message displayed on any sign; nor is it the purpose or intent of this ordinance to regulate any building design or any display not defined as a sign, or any sign which cannot be viewed from outside a building. The purpose and intent of this ordinance is to:

1. Regulate the number, location, size, type, illumination and other physical characteristics of signs within the city in order to promote the public health, safety and welfare.

2. To establish standards which permit property owners the opportunity to identify and advertise themselves, goods, or services; to preserve and protect the value of land, buildings and landscapes and promote the attractiveness of the community; to ensure that signs in the City are not a safety hazard to lives and/or property; to eliminate confusion in locating goods, services and facilities, and to preserve order and to encourage business to erect permanent signs and discourage temporary and/or portable signs.
3. Improve the visual appearance of the City while providing for effective means of communication, consistent with constitutional guarantees and the City's goals of public safety and aesthetics.
4. Provide for fair and consistent enforcement of the sign regulations set forth herein under the zoning authority of the City.

Subdivision 3: EFFECT.

A sign may be erected, mounted, displayed or maintained in the city if it is in conformance with the provisions of this ordinance. The effect of this ordinance, as more specifically set forth herein, is to:

1. Allow a wide variety of sign types in commercial zones, and a more limited variety of signs in other zones, subject to the standards set forth in this sign ordinance.
2. Allow certain small, unobtrusive signs incidental to the principal use of a site in all zones when in compliance with the requirements of this sign ordinance.
3. Prohibit signs whose location, size, type, illumination or other physical characteristics negatively affect the environment and where the communication can be accomplished by means having a lesser impact on the

environment and the public health, safety and welfare.

4. Provide for the enforcement of the provisions of this sign ordinance.

Subdivision 4: SEVERABILITY.

If any section, subsection, sentence, clause, or phrase of this Sign Ordinance is for any reason held to be invalid, such invalidity shall not affect the validity or enforceability of the remaining portions of this Sign Ordinance. The City Council hereby declares that it would have adopted the Sign Ordinance in each section, subsection, sentence, or phrase thereof, irrespective of the fact that any one or more sections, subsections, sentences, clauses, or phrases be declared invalid.

Subdivision 20: NON-CONFORMING SIGNS: COMPLIANCE.

It is recognized that signs exist within the zoning districts which were lawful before this sign ordinance was enacted, but will be prohibited under the terms of this section. It is the intent of this sign ordinance that nonconforming signs shall not be enlarged upon or expanded, nor be used as grounds for adding other signs or uses prohibited elsewhere in the same district. It is further the intent of this sign ordinance to permit legal nonconforming signs existing on the effective date of this sign ordinance to continue as legal nonconforming signs provided such signs are safe, are maintained so as not to be unsightly, and have not been abandoned or removed, subject to the following provisions:

1. No sign shall be enlarged or altered in a way which increases its nonconformity.
2. If the use of the nonconforming sign or sign structure is discontinued for a period of one (1) year, the sign or sign structure shall not be reconstructed or used except in conformity with the provisions of this ordinance.
3. Should such nonconforming sign or sign structure be damaged or structure be destroyed by any means to an extent greater than fifty (50) percent of its market value and all required permits for its reconstruction have not been applied for within one hundred eighty

(180) days of when the sign or sign structure was damaged, it shall not be reconstructed or used except in conformity with the provisions of this ordinance.

4. Should such sign or sign structure be moved for any reason for any distance whatsoever, it shall thereafter conform to the regulations for the zoning district in which it is located after it is moved.
5. No existing sign devoted to a use not permitted by the zoning code in the zoning district in which it is located shall be enlarged, expanded or moved except in changing the sign to a sign permitted in the zoning district in which is it located.
6. When a building loses its nonconforming status all signs devoted to the structure shall be removed and all signs painted directly on the structure shall be repainted in a neutral color or a color which will harmonize with the structure.

Subdivision 21: VIOLATIONS.

Violation of this section is a violation as a misdemeanor, and enforced under Section 25. Each day that the violation continues is a separate offense.

Subdivision 22: NON-COMMERCIAL SPEECH.

Notwithstanding any other provisions of this sign ordinance, all signs of any size containing Non-Commercial Speech may be posted from August 1 in any general election year until ten (10) days following the general election and thirteen (13) weeks prior to any special election until ten (10) days following the special election. No permit shall be required for a sign placed pursuant to this subdivision. These signs shall be subject to any applicable restrictions on campaigning in and around polling places.

Subdivision 23: SUBSTITUTION CLAUSE.

The owner of any sign which is otherwise allowed by this sign

ordinance may substitute non-commercial speech in lieu of any other commercial speech or non-commercial speech. This substitution of copy may be made without any additional approval or permitting. The purpose of this provision is to prevent any inadvertent favoring of commercial speech over non-commercial speech, or favoring of any particular non-commercial speech over any other non-commercial speech. This provision prevails over any more specific provision to the contrary.
