

NOTICE OF PUBLIC HEARING

ON CITY OF FOLEY SEWER RATE CHANGES FOR SPRINKLER SYSTEMS

The City of Foley is holding a public hearing on June 6, 2023, @ 5:30pm in the Foley City Hall Council Chambers, 251 4th Avenue N, Foley, MN.

The City is proposing an irrigation sprinkler ordinance that would allow for property owners to install a separate city approved meter for in-ground sprinkler systems. Irrigation sprinklers would be charged a minimum every month, year-round, regardless of water usage. Additional water charges would be applied if usage exceeds 2,500 gallons in one month. Water charges would follow the standard water rate (currently .65 for 100 gallons). Sewer charges will not be applied in these irrigation accounts. Property owners would be required to apply for a plumbing permit and pass inspection prior to the system being turned on. Other requirements and restrictions apply. Please see the city website for more information: www.ci.foley.mn.us
