

Welcome again to Jim's Mille Lacs Disposal. We are excited to service Foley! By now, you should have received a recycling cart and a trash cart.

### **Pick-Ups**

- Carts will need to be placed at the end of your **driveway** by 6am.
- Trash pick up will be **every** week on Thursday starting July 4th.
- Recycling pick up will be **every other** week on Thursday starting July 11th.

### **Notes about Carts**

- Carts will need to be 3 ft apart in order for our side loader to grab them.
- Carts need to be level full or less, or additional charges might occur.
- If you are going to have extras, please call our office the day before.

### **Billing/Payments**

- Billing is done 1 month in advance (ex. June bill will pay for July service). Bills are mailed out the 1st of the month and due by the 15th of the same month.
- Your first bill will be a double payment for July & August, after that it will be for a single month.
- You can pay by cash, check, or credit/debit card
  - Credit/debit cards must be Visa or Mastercard
  - A service fee will be added to checks or credit/debit cards to cover the phone payments
- You can set up recurring payments (will waive service fee) or pay future months.
- We are working on an online payment option. Watch our website or Facebook page for when this is up and running.
- If you pay for 12 months of service, you get the 13th month free! Just mention it when you call or mail in a check.

### **Holiday Routes**

Check our website or Facebook page for future holiday routes.

Our office may be closed on holidays, even if drivers are working.

We have voicemail and will return your call when we are back in the office.

### **Future Disposal Needs**

Garage or spring cleaning? Maybe remodeling? Remember us for all your disposal needs! We have larger dumpsters and roll-offs.
